

MANO ARVIND

+91 9384789008 — manoarvind27@gmail.com — <https://www.linkedin.com/in/manoarvind/> — Website

Summary

Aspiring Data Analyst and Data Engineer with hands-on experience in SQL, Python, Excel, Power BI, Apache Spark, Kafka, and PostgreSQL. Skilled in data cleaning, transformation, analysis, visualization, and building end-to-end data pipelines. Experienced in developing data-driven solutions, interactive dashboards, and real-time data processing systems to support business decision-making. Passionate about leveraging data to uncover insights and solve complex problems.

Technical Skills

Programming: Python, R, SQL, Java, JavaScript

Data Engineering: ETL Pipelines, Data Modeling, Data Warehousing, Apache Spark, PySpark, Hadoop, Hive, Apache Kafka, Databricks, Apache Airflow

Databases & Querying: MySQL, PostgreSQL, MongoDB, SQLite, SQL Queries, Database Design, Query Optimization

Data Science & Machine Learning: NumPy, Pandas, Scikit-learn, TensorFlow, Keras, OpenCV

Business Intelligence & Visualization: Power BI, Tableau, Microsoft Excel, Matplotlib, Seaborn, Plotly, Dashboard Development, KPI Reporting

Cloud Platforms: AWS, Microsoft Azure

Tools & Technologies: Git, Docker, Linux, Jupyter Notebook, VS Code

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Critical Thinking, Time Management, Adaptability, Attention to Detail

Work Experience

Data Science Intern

Nov 2025 – Jan 2026

MGRID Technologies, Hyderabad

Python, Machine Learning, MERN Stack

- Developed a career recommendation system using the MERN stack to help users identify suitable career paths based on skills, interests, and learning preferences.
- Built and integrated a machine learning-based recommendation engine that generated personalized career suggestions with improved relevance and accuracy.
- Implemented secure user authentication and role-based access control for students and administrators.
- Designed interactive dashboards to visualize user activity, recommendation results, and platform usage metrics, enhancing user experience and decision-making.
- Collaborated with the development team to integrate frontend, backend, and machine learning components into a scalable web application.

Projects

Food Delivery Analytics Pipeline | *Python, Kafka, Spark, PostgreSQL, Power BI*

2026

- Built an end-to-end real-time analytics pipeline for food delivery order data using Apache Kafka, PySpark, PostgreSQL, and Power BI.
- Streamed order events through Kafka topics and processed them using Spark transformations for aggregation and trend analysis.
- Designed PostgreSQL schemas and automated data loading workflows for efficient storage and querying.
- Created interactive Power BI dashboards to monitor order volume, revenue trends, delivery performance, and payment analytics in near real time.

Career Recommendation System | *MERN Stack, Machine Learning, Python*

2025

- Developed a web-based career recommendation platform that suggests suitable career paths based on user skills, interests, and educational background.
- Built and trained machine learning models to generate personalized recommendations with improved prediction accuracy.
- Implemented secure authentication, user management, and interactive dashboards using the MERN stack.

- Integrated frontend, backend, and machine learning components into a scalable full-stack application.

NodeShare - File Sharing Platform | *Node.js, Express.js, MongoDB*

2026

- Developed a secure file-sharing platform enabling users to upload, manage, and share files through generated links.
- Implemented file storage, metadata management, and download tracking functionalities using Node.js and MongoDB.
- Designed REST APIs for file operations and optimized backend performance for handling multiple concurrent requests.
- Built a responsive user interface with streamlined workflows for file upload and sharing.

Certifications

- **IBM SkillsBuild Data Science Learning Path** – Completed foundational training in Data Science, Data Analytics, and AI concepts through IBM SkillsBuild.
- **AWS Educate Cloud Learning** – Completed cloud computing fundamentals, database, and cloud operations learning modules with hands-on practice.
- **Microsoft Learn Data Scientist Path** – Completed self-paced learning modules covering data science, machine learning, and analytics concepts.
- **Google Cloud Skills Training** – Learned cloud fundamentals, analytics concepts, and cloud-based data processing workflows.
- **Built Multiple End-to-End Projects** using Python, SQL, Power BI, Apache Spark, Kafka, PostgreSQL, Machine Learning, and MERN Stack technologies.

Education

Bachelor of Science (BSc) in Data Science

SIES College of Arts, Science & Commerce, Sion (west), Mumbai - 400 022

2023 – 2026

CGPA: 9 / 10
